can offer free study
and accommodation.**

**Develop skills in literacy, ICT and
more, in a residential or
non-residential environment.**

**Growing older doesn't mean you

**Look inside for more
information**

Then RANSACKERS could be for you!

What is the Ransackers project?

The project provides an opportunity for older people, who have not previously benefited from further education.

Students will spend **one term** at one of the colleges participating in the project and with the help of a tutor, produce an independent original research project in an area of interest that increases personal skills and is of benefit to the community.

Ransackers have had participants ranging from 50 to 82 years old.

“ I really enjoyed it. It was a completely different environment - you don't have to worry about domestic arrangements, you just get involved in education. It was wonderful.”

- Horace Coward, Ransackers student, aged 76
